

Bobcat

One Tough Animal

MINI EXCAVATORS

E88

6–10t, R2-Series

🌐 Europe

INTRODUCTION

ONE TOUGH ANIMAL

► BOBCAT'S HISTORY

In 1958, the Melroe Manufacturing Company introduced a compact front-end loader that quickly evolved into the M400, the world's first true skid-steer loader. The company soon adopted what became the world-famous "Bobcat" brand, and its success paved the way for the global compact equipment industry we see today.

► YEARS OF EXPERIENCE

Today, Bobcat's EMEA headquarters in Dobříš, Czech Republic, serves as a hub for innovation. Here, a manufacturing plant produces around 25 000 machines annually for EMEA customers and global export. The site is also home to the Bobcat Innovation Centre, where rigorous testing and product development take place using advanced facilities like climate-controlled and anechoic chambers.

► BOBCAT TODAY

With over 60 years of manufacturing experience and a commitment to ongoing innovation, Bobcat has delivered millions of machines to the market. Known for their high performance, reliability, and unparalleled comfort, the diverse lineup caters to various applications. Whether it's landscaping, snow removal, construction, demolition, or roadwork, Bobcat machines empower users to accomplish more.

► OUR MISSION

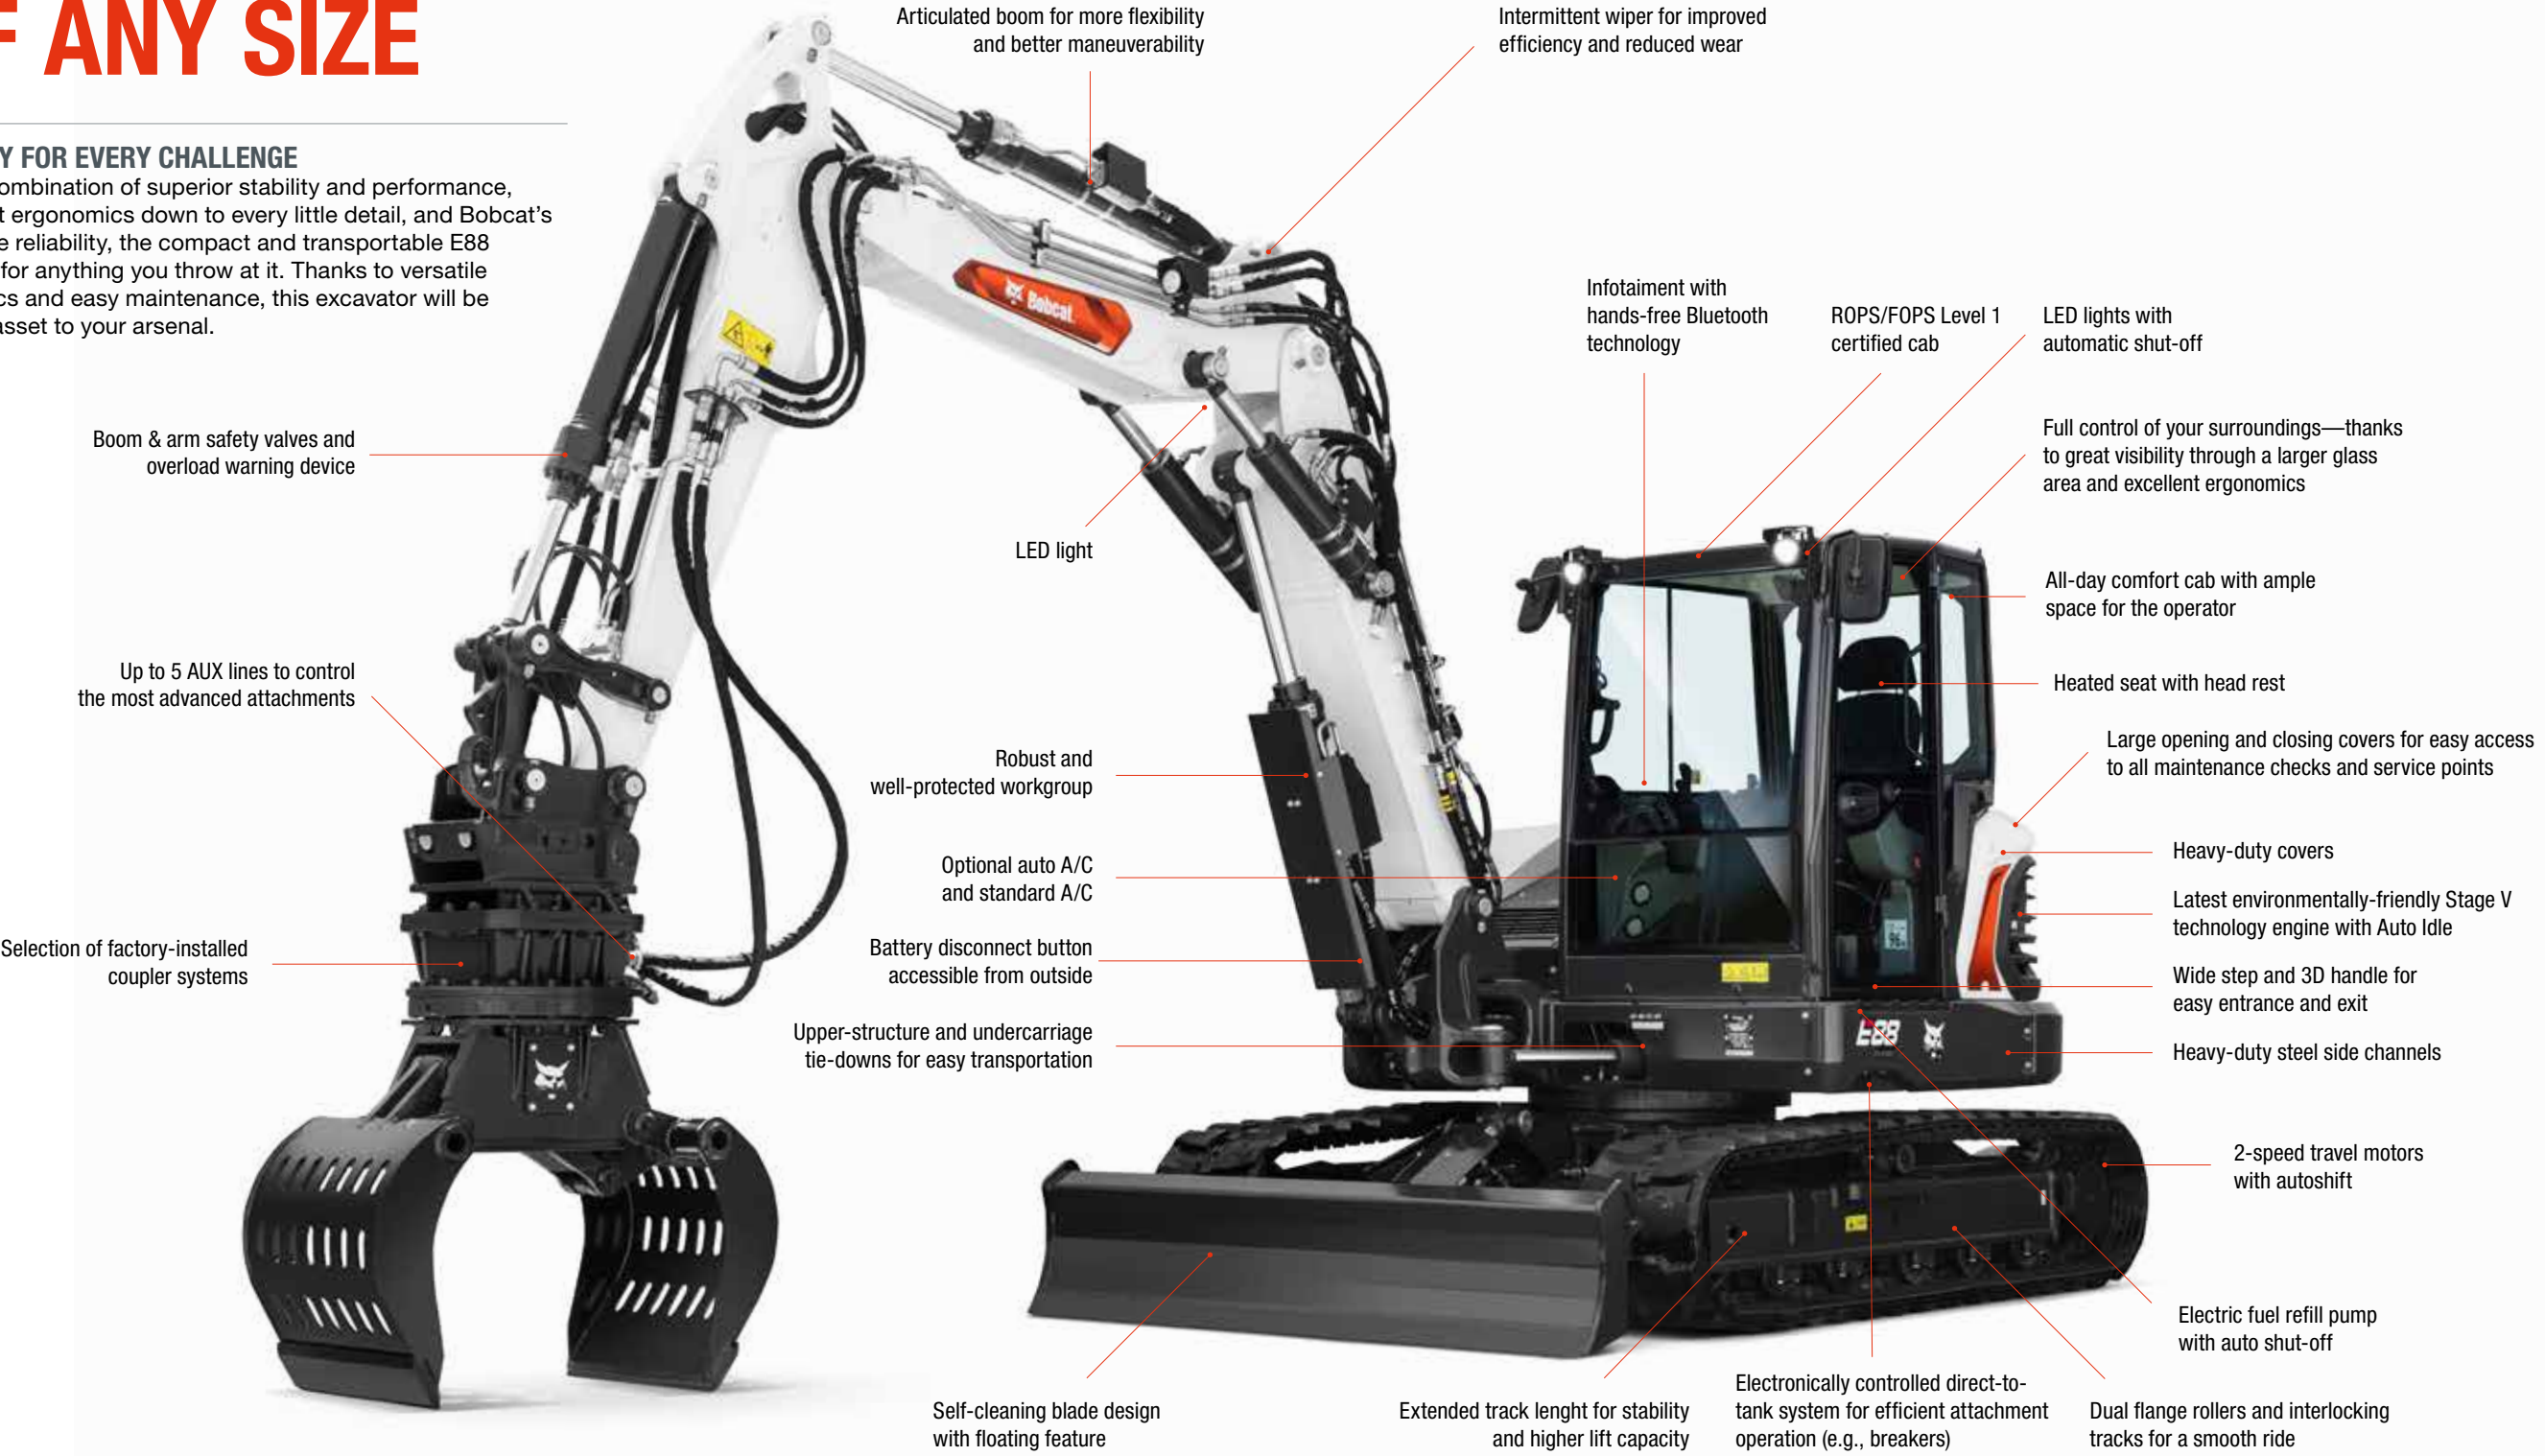

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

TAKE ON JOBS OF ANY SIZE

► **READY FOR EVERY CHALLENGE**

With a combination of superior stability and performance, excellent ergonomics down to every little detail, and Bobcat's signature reliability, the compact and transportable E88 is ready for anything you throw at it. Thanks to versatile hydraulics and easy maintenance, this excavator will be a great asset to your arsenal.

Boom & arm safety valves and overload warning device

Up to 5 AUX lines to control the most advanced attachments

Selection of factory-installed coupler systems

Articulated boom for more flexibility and better maneuverability

LED light

Robust and well-protected workgroup

Optional auto A/C and standard A/C

Battery disconnect button accessible from outside

Upper-structure and undercarriage tie-downs for easy transportation

Self-cleaning blade design with floating feature

Intermittent wiper for improved efficiency and reduced wear

Infotainment with hands-free Bluetooth technology

ROPS/FOPS Level 1 certified cab

LED lights with automatic shut-off

Full control of your surroundings—thanks to great visibility through a larger glass area and excellent ergonomics

All-day comfort cab with ample space for the operator

Heated seat with head rest

Large opening and closing covers for easy access to all maintenance checks and service points

Heavy-duty covers

Latest environmentally-friendly Stage V technology engine with Auto Idle

Wide step and 3D handle for easy entrance and exit

Heavy-duty steel side channels

2-speed travel motors with autoshift

Electric fuel refill pump with auto shut-off

Extended track length for stability and higher lift capacity

Electronically controlled direct-to-tank system for efficient attachment operation (e.g., breakers)

Dual flange rollers and interlocking tracks for a smooth ride

► **SCAN ME**

Watch the E88 walkaround

► **ROCK SOLID, ROCK STEADY**

Take on any job with confidence-inspiring stability and balance—even with the heaviest attachments.

P. 6–9

► **LEGENDARY PRODUCTIVITY**

Get more done with less effort. The E88 is designed to give you as much power as you need, exactly when you need it.

P. 6–9

► **ALL-DAY COMFORT**

Stay comfortable thanks to E88's auto HVAC, a premium seat with a headrest, and the low-effort joystick.

P. 10–11

► **TRUE MULTI-TOOL**

With up to 5 AUX lines and A-SAC, you're ready to take full advantage of Bobcat's extensive range of attachments.

P. 14–15

PERFORMANCE

► BOBCAT'S PRODUCTIVITY

Equipped with a high-performance engine and a powerful High Flow option, Bobcat's mini excavator features high breakout forces paired with solid stability. Do more, get better results, and grow your business.

► DEPENDABLE ENGINE

Time-proven Bobcat D24 engine —used in thousands of Bobcat machines worldwide—now in a new Stage V compliant version with improved performance characteristics.

POWER WHERE YOU NEED IT

► SMOOTH OPERATION

Low effort joysticks coupled with the new generation control valve make the workgroup feel like the extension of the operator's arm. Improved metering and dual slope control curve have been developed for operators of all skills and experiences.

► RIGHT TOOL FOR THE JOB

Professionals know the value of matching their equipment to the work at hand. Bobcat's lineup includes a range of options to meet the needs of every job. Whether it's digging, grading or handling heavy materials, thanks to up to 5 AUX lines, you can use variety of attachment without compromising on performance.

ARTICULATED BOOM

VERSATILITY THAT FITS ANYWHERE

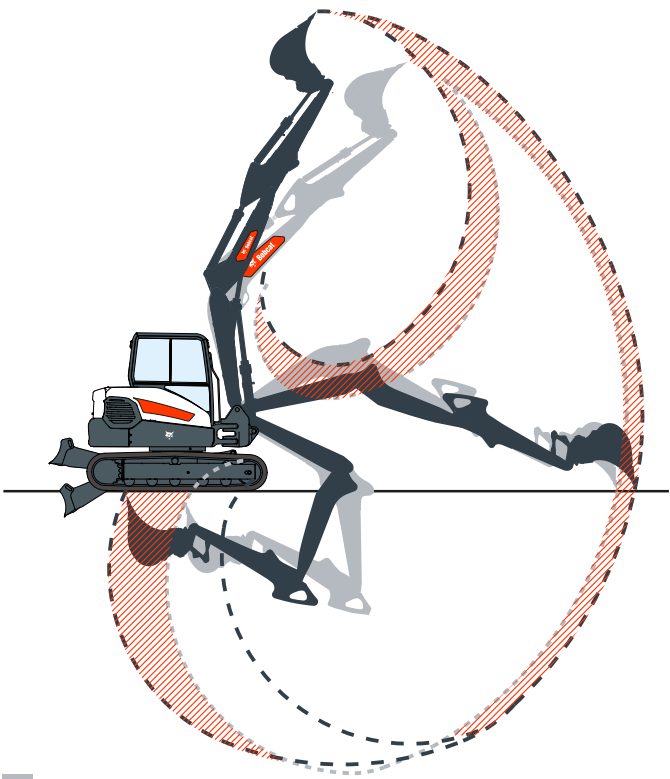

Bobcat's articulated boom's dual-section design provides operators with greater flexibility, especially in tight or urban job sites. It allows the machine to work closer to walls, around obstacles, and in confined spaces where a monoboom would be limited.

MADE TO WORK WHERE OTHERS CAN'T

The articulated boom on the E88 gives you more than extra reach—it adds a vertical advantage. Dig deeper and lift higher, even close to the machine. It's ideal for deep trenching near the tracks, working on slopes, and placing materials in tight spaces, with increased loading height and digging depth right where you need it.

EFFICIENT FROM EVERY ANGLE

The enhanced boom geometry delivers smoother, more precise control when handling materials at various angles. It allows operators to position the bucket with greater accuracy, accelerating loading cycles and increasing productivity, especially when working with trucks or moving materials.

- Mono boom
- Articulated boom
- Working area comparison

PEDAL CONTROL FOR PRECISION AND COMFORT

While others rely solely on joystick control, our pedal-operated system offers enhanced precision and superior comfort. Experience smoother operation, reduced fatigue, and more intuitive machine handling.

MOVE LESS, DO MORE

An articulated boom reduces the need for constant machine repositioning, minimizing ground disturbance, lowering fuel consumption, and making operation more comfortable—a win for both efficiency and long-term durability.

STEP INSIDE

► ALL-DAY COMFORT

Focus on the job at hand and let the E88's spacious cab keep you comfortable—thanks to automatic air-conditioning, a premium seat with a headrest, and the low-effort joystick (adjustable independently from the seat).

Get to work right away thanks to the logically laid-out controls and LCD.

► TOUCH CONTROLS

Optional 7-inch touch screen with Bluetooth, hands-free calling and media streaming. Automatically switching to Dark Mode in low light.

► AIR-CONDITIONED

The E88 is equipped with powerful automatic air conditioning that quickly cools down the entire cab, even on the hottest days.

► KEEPING WATCH

Large windows, powerful and well positioned LEDs and an optional rear-view camera provide outstanding visibility.

BUILT TOUGH

► BUILT TO LAST

Bobcat's battle-proven, reliable components form the blueprint for a dependable machine. From the robust and well-protected workgroup with cast parts, to the cab, joysticks and engine, this is quality you can feel in both operation and maintenance.

► DO IT YOURSELF

Thanks to accessible and cleverly positioned service points and large covers, you can take care of everyday maintenance, and even small repairs, without leaving the job site.

Easy servicing thanks to large covers

A MACHINE THAT WORKS WITH YOU. A BRAND THAT STANDS BEHIND YOU.

Buying a Bobcat isn't just a purchase — it's peace of mind. From Day 1 all through the machine's lifetime, we're with you.

BOBCAT WARRANTY

COVERAGE THAT HAS YOUR BACK

Every new Bobcat comes with built-in confidence — and the option to go even further.

- ✓ 2 years / 2 000 hours of standard coverage
- ✓ Protection Plus: Extend your warranty and your peace of mind

MACHINE IQ

STAY IN CONTROL — EVEN FROM A DISTANCE

Track your machine's performance, location, fuel level, and health in real time from your phone or computer thanks to Machine IQ, with a Standard plan now free with new machines.

ATTACHMENTS

ONE MACHINE, MANY JOBS

Your Bobcat is more than a machine — it's your all-in-one solution. From loading to drilling to cleanup, swap tasks in seconds.

- ✓ Pre-selected kits for easier setup

TRAINING VIDEOS:
QUICK TIPS,
REAL RESULTS

SERVICE

SERVICE THAT KEEPS YOU MOVING

Bobcat-authorized service means your machine gets expert care — fast. Regular checks, genuine parts, minimal downtime. And support that's always close by.

GENUINE PARTS

GUARANTEED PERFORMANCE.

Perfect fit, lasting performance, longer machine life. With genuine Bobcat parts, every start is reliable, and every action precise.

- ✓ Wide partner network
- ✓ 96% of parts delivered within 48 hours

BOBCAT CERTIFIED

BACKED TO HOLD VALUE

A well-maintained Bobcat keeps its edge — and its worth. With Bobcat Certified, your machine stays recognized, trusted, and ready for the next owner.

BOBCAT. RELIABILITY THAT LASTS LONGER.
